

Enzyme Prespray

Enzymatic Prespray and Traffic Lane Cleaner

Carpet Care

Description

Enzyme Prespray is a powerful cleaning partner when used with other detergents that can not remove soils and stains on their own. This product works by breaking down the protein bond that causes soils and stains to adhere to carpet fibers. After bonds have been broken, soils and stains are removed effortlessly and quickly. Grease and oil based stains are no match for this quality product; Enzyme Prespray works immediately to digest grease and oil-binding soils. Enzyme Prespray is quick dissolving, fast acting, pH buffered, and simple to use.

Directions for Use

IMPORTANT NOTE: optimum results are achieved with hot water in the range of 80 degrees to 140 degrees. Mix only enough prespray to be used within a 24-hour period to avoid reduced enzyme action and activity. Extremely heavy soil, mix 3 oz. in 1 gallon of hot water. For moderate to heavy soil, mix 2 oz. in 1 gallon of hot water. Apply to carpet using a portable sprayer. In order to increase cleaning efficiency, brush lightly with a hand pile brush. When using a hydro-force type sprayer, dilute 10 oz. Enzyme Prespray in 5 quarts of warm water and apply to carpet with sprayer as follows: Spray 100-125 sq. ft. of carpet at a time and brush in solution. Enzyme Prespray starts working instantly. For maximum effectiveness let the enzymes do their work 5-10 minutes before cleaning. As a wet cleaning spray for upholstery, always pre-test fabric for colorfastness. Mix 1-2 oz. of Enzyme Prespray into 1 gallon of hot tap water, spray lightly over soiled areas and allow sitting for approximately 5 minutes. Then clean using the normal industry-accepted practices.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- Breaks down dirt binding protein
- Helps get out greasy soil that ordinary detergents won't remove.
- PH buffered
- Quick dissolving, fast acting, simple to use

Specifications

Appearance:	White Powder
Odor:	Light Citrus
PH 1% Solution	10-11
Biodegradable:	Yes
Detergency:	Excellent

Dilution

Heavy Soil.....	1:42 (3 ounces / Gallon)
Medium Soil.....	1:64 (2 ounces / Gallon)
Hydro-Force Sprayer.....	1:16 (10 ounces / 5 Quarts)
Upholstery Cleaner.....	1:64 (2 ounces / Gallon)

Available Sizes

- Case/ 4x7.5 lb Jars : Item # 808508
- Pail / 45 lb : Item # 808516
- Keg / 100 lb : Item # 808513
- Keg / 400 lb : Item # 808532
